

COP 27 SONG [tune “Come and Join the Celebration”, Singing the Faith 196]

*Come and join the demonstration  
Climate justice our demand.  
Show our joined determination  
Bring your friends to swell the band.*

Global weather, flooding, drought and melting ice,  
We must act fast, all together now - shout out for justice!

*Come and join the demonstration  
Climate justice our demand.  
Show our joined determination  
Bring your friends to swell the band.*

Jungle clearance, mining, trawling, thawing bog,  
Oceans rising, all together now – shout out for justice!

*Come and join the demonstration  
Climate justice our demand.  
Show our joined determination  
Bring your friends to swell the band.*
