SUMMARY

Treasurer's reports are circulated to each District Leading Team meeting, to keep members informed of the financial position of the District. Key points to note in this report are:

- General fund and restricted funds performing in line with budget
- · Advance fund expected be in surplus for this year, but this is still expected to unwind next year
- Some progress is being made with shortfall in future years financing of Peak Park and Persian Ministry development roles
- Concerns about increases in Connexional assessment previously expressed on behalf of DLT will be taken forward to forthcoming district treasurers meeting

JULY 2023 DISTRICT FINANCES (Appendix 1)

Full year financial information for the year ended 31 August 2023 is not yet available. Comments below are based on information to the end of July. Our budget for 2023/24 was agreed in January.

General fund most costs and receipts continue to be consistent with budget. We are likely to end the year close to the budgeted deficit of £4k. Cost of living allowances £2k, magazine/ video costs £5k and higher than expected costs of subsidising Learning Network retreats are expected to be offset by higher interest income and lower than budgeted travel and maintenance costs and training grants.

Advance fund as previously noted has benefited from higher than budgeted receipts (£287k expected vs 160k budgeted). My expectation remains unchanged from our budget set in January, that the surplus in the advance fund will unwind next year as potential grants in the pipeline start to come through.

Restricted funds continue to be performing largely in line with budget.

The Peak Park Rural Development Enabler fund has received a £19k grant award from TMCP, leaving £15-20k further to be raised to fund the extension of this role to summer 2026. The grant is expected to be received during August.

Negotiations are being finalised for the newly independent The Kings Cross Church in Doncaster to pay for 10 hours per week of our Persian Ministry Development Enabler's time. The project steering group will monitor carefully how these arrangements are working in practice.

2024/25 Connexional assessment

For 2023/24 our circuits will incur a 9% increase in their Connexional assessment. We agreed to mitigate this by reducing their smaller District assessment by 16%, meaning a net assessment increase for our circuits of 3%. We noted that this approach was not sustainable without significantly curtailing circuit or district investment in new missional opportunities.

As previously reported to DLT, Gill Newton attempted to open a conversation with the Connexional Team about ways to reduce the Connexional assessment, but did not make progress, partly due to the Connexional Team considering the assessments to have been agreed by district treasurers. My understanding of the district

treasurers meeting references was that we had agreed the assessment formula (how to share the metaphorical pie rather than the ingredients which affect its size).

I am due to attend a district treasurers meeting in October, at which the assessment formula will likely be on the agenda. Given the continuing high rate of inflation, I am once again expecting a proposed increase in Connexional assessment for our circuits.

Legally the district is only a collection agent for Connexional assessments on circuits. We collect and pass on the money to simplify administration. But if a circuit were unable to pay its assessment, the district would not be liable to make up the difference from its own funds.

In this context, I intend to state at the district treasurers meeting that I cannot confirm what Connexional assessment our circuits can afford for 2024/25 until they have set their own budgets next March. Given the significant pace of change in our denomination, this would be consistent with the way that our circuits are having to negotiate with churches about what level of assessment can be sustained, rather than assuming that they can each afford a formula-driven cost.

Neil Harland

30 August 2023

Grant to MCCP was calculated based on funding from Methodism and URC only. Two years of CofE funding has been confirmed, and so our grant reduces accordingly.
